YOUNG MOMS AND THEIR CHILDREN

At Almost Home we want the young moms who attend and complete our program to have the power to improve their quality of life for themselves and their children. Thanks to the support of people like you, 96 moms and 94 children had the opportunity to do that in 2019. That means 94 families now have the opportunity to open doors that were closed to them and push pass barriers that prevented them from succeeding.

Almost Home's staff and clients thank you for being a part of our story! You've made a difference in the lives of so many mothers and their children.
The cycle of poverty continues to keep young women stuck, generation after generation... After a long history of ineffective assistance programs and poor support, the cycle of poverty continues to limit many young moms who are fighting just to meet their basic needs. For many, the tools needed to become self-sufficient remain out of reach.

In Missouri, 38% of single women with children live below the poverty line, and the poverty rate in the City of St. Louis is the ninth highest in the state at 24.3%. Research has documented long-lasting negative effects of poverty, including disparities in children's health, educational progress, and social adjustment. Poor children are more likely to fall behind in academic achievement, require expensive medical treatment, and become delinquent. According to the Brookings Institute, around 40% of children born to women in poverty remain in poverty a generation later. These barriers to earning present an "opportunity gap" that Almost Home's Foundations to Success Transitional Living Program seeks to close. Through stable housing, education and employment support, therapeutic counseling, positive parenting, and independent living skills classes, Almost Home gives teen moms a foundation on which to achieve educational and employment success, and ultimately, financial security.
Young moms were empowered by foundations for success.

Foundations To Success
Building a successful future starts with a solid foundation. Foundations to Success (FTS) provides a safe, nurturing environment to 16-20 year-old, low-income, single moms and their children. We equip them to pursue and achieve their education and career goals by providing: immediate needs for housing, food, clothing, baby supplies, case management, counseling and other services.

Almost Home Apartments
Located across the street from our transitional living facility, our apartments are rent subsidized and in close proximity to Almost Home. This allows FTS Alumni to live independently while still easily accessing support services.

Alumni Support Program (ASP)
Former FTS Program clients have access to on-going stabilization support, coaching, support groups, therapy, and referrals to community resources through the ASP Program. Access to these services for up to eight years helps young moms achieve greater economic self-sufficiency.

In 2019:
50 Moms received therapeutic therapy.
53 Kids got a chance at a better future.
53 Young moms were empowered by foundations for success.
41 Alumni families received continued support as they worked to achieve their long-term goals.

Our donors are as inspiring to us as our moms.

Our donors know what it means to dream big, take risks, be disappointed, persevere, overcome obstacles, and achieve success. They believe in the value of hard work, and are inspired to invest in a young mom who has put it all on the line for a better future.

Make a donation and learn more about special incentives with the Maternity Home Tax Credit at: almosthomestl.org/give.
